MathGeek, Kusafusa's blog
Updated March 13, 2020

My recent obsession is to focus on the topics of mathlogic, philosophy, computer science, and languages.

[The research proposal of symbolic artificial intelligence](#) Feb 25, 2020.

[Self-referencing and fixed point theorem](#) March 13, 2020.

[Matryoshka and recursion](#) Reconsider Recursively 2020. 3. 11

[Criticism of pure reason and understanding](#) March 8, 2020

[Symmetry as an invariant is the essence of language acquisition.](#) Feb 14, 2020

[Monad](#) Feb 28, 2020

[Stone Duality and Hilbert's Nullstellensatz](#) Aug 15, 2019

[Mathematical logic, by Shoenfield 1967](#) July 20, 2019

[Kleene's recursion theorem and Rogers's fixed-point theorem](#) July 23, 2019

[Recursion-fixed point-and-automorphism](#) .m4v Aug 2, 2019

[Cartesian-Closed-Category](#) Aug 3, 2019

[Science in English { Euler's characteriistic is invariant }](#) for kids July 27, 2019

[Direct sum, direct product](#) April 17, 2019

[Finite Model Theory](#) March 20, 2019

[Two Model Theories.](#) March 18, 2019

[Recent mathematical writings index](#) March 6, 2019

Duality Feb 15, 2019

Fixed point theorem & recursive programming Jan 11, 2018

Semantics of programming Jan 9, 2018

The research proposal of symbolic artificial intelligence

Japanese proposal Password required
